

The Sopra Steria Group has earned the AWS Migration Competency

Paris, April 11, 2022 – The Sopra Steria Group, a European Tech leader recognised for its consulting, digital services and software development, announced today that it has achieved the AWS Migration Competency. This competency signifies that Sopra Steria has an end-to-end expertise in optimizing AWS migration planning, cost efficiency, security, availability, and performance, with the provider's cloud technologies.

Achieving this competency differentiates Sopra Steria as an AWS Partner that follows best practices, enhanced by track record of success and deep technical proficiency. As a trusted advisor, Sopra Steria Digital & Cloud Center of Excellence Teams help to build the foundations required for complex migrations and modernization in the cloud. They assess the customer's business goals, recommend appropriate evolution scenario strategies, tailor a migration plan to these needs, and advise any potential Cloud Ops Transformation or outsourcing strategy, to deliver the expected customer's value in a timely manner.

Xavier Pecquet, EXCOM Member at Sopra Steria said, "Cloud is the catalyst of Digital Services, supporting the most resilient, innovative and scalable services. Sopra Steria's Discovery, Assessment and Advanced Migration approach combined with AWS technologies provides businesses a value-oriented migration and modernization path that helps them to control both cost and post-migration success."

Sopra Steria is well-versed in AWS Competencies, and alongside qualifying for the AWS Migration Competency, it also holds a Financial Services Competency, and is part of AWS Partner Programs such as the AWS Managed Service Provider program, Well-Architected, APN Immersion Days, and the Public Sector Partner and Solution Provider Program.

Sopra Steria has been an AWS Consulting (now Services) Partner in the AWS Partner Network at the Advanced Tier since January 2017. This new competency follows the renewal in 2021 of Sopra Steria membership to the AWS MSP (Managed Service Provider) Program.
