

## **Sopra Steria recognised as a Leader in End-to-end Cloud Infrastructure Management Services by global analyst firm NelsonHall**

**Paris, November 15, 2022 – Sopra Steria, a European Tech leader recognised for its consulting, digital services, and software development, announced today that its practices and Digital and Cloud Center of Excellence Teams have been ranked among the "leaders" in the 2022 NelsonHall NEAT analysis on the End-to-End Cloud Infrastructure Management Services market segment.**

NelsonHall's NEAT report assessed 17 companies across the globe and focused its review on the use of hybrid Cloud Management Platforms and cognitive technologies, AI, ML, automation, agile, DevSecOps, and full stack hyperscaler capabilities across end-to-end Cloud Infrastructure Management Services.

Sopra Steria leverages its "Digital and Cloud Center of Excellence" to bring both vertical and technology expertise. NelsonHall's recognition of Sopra Steria is based on the following strengths:

- Its extensive ecosystem of partners, Tech giants and European Cloud Service Providers, with a vendor-agnostic approach.
- Strong consulting capabilities to help clients utilize Clouds as an enabler for new digital services.
- Its Digital Innovation Factory solution to ensure that enterprise processes, technology, organization skills, and culture are designed to embrace a BizDevSecOps approach to support digital transformation. This solution especially focuses on DevSecOps, SRE-led and XLAs approaches meeting client's vertical-specific requirements, such as compliance or Artificial Intelligence. It encompasses management of hybrid multi-Cloud services, Infrastructure-as-Code, self-healing, and container services.

*"Henceforth, the digital economy requires agile, robust, and sustainable Cloud-based foundations meeting the specific vertical sector needs and "Europe's Digital Decade rights and principles. Sopra Steria's Digital and Cloud Center of Excellence combines industry-leading expertise and end-to-end compliant multi-Cloud practices to help organisations maximize their transformation at every stage of their journey. Our teams are honoured to be recognised by NelsonHall as a Leader in End-to-end Cloud Infrastructure Management Services" said **Béatrice Rollet, Group CTO – Digital and Cloud Services at Sopra Steria.***

*"Sopra Steria improves cloud-native services through container orchestration services and microservices, and has expanded its Cloud CoE accelerators marketplace. Through its Digital Innovation Factory approach, it invests in SRE-led function to drive a DevSecOps approach. It is investing in self-healing, cloud economics, FinOps, and observability in support of hybrid multi-cloud. Sopra Steria has also developed hyperscaler-specific cloud management platforms focused on the dev-centric experience, with plans to double hyperscaler GTM initiatives in the next 12 months." stated **John Laherty, Senior Research Analyst at NelsonHall.***

### **About Sopra Steria**
