Sopra Steria achieves the Cloud Migration Partner Specialization in the Google Cloud Partner Advantage Program

Paris, June 28, 2022 – Sopra Steria, a European Tech leader recognised for its consulting, digital services and software development, today announced its Digital and Cloud Center of Excellence has successfully passed the Cloud Migration Partner Specialization audit.

Google Cloud Specialization is the highest technical designation a partner can earn. Partners who have achieved a Specialization in a solution area have an established Google Cloud services practice, consistent customer success, and proven technical capabilities, vetted by Google and a third-party assessor.

This Cloud Migration partner specialization demonstrates that Sopra Steria Teams have proven expertise and successfully built customer Cloud Migration solutions of workload and data from on-premises, private Cloud or other public Clouds to Google Cloud technologies. This specialization encompasses:

- Capabilities Assessment, including a process for discovering, assessing existing workload, data from business and technical perspectives, solution design, implementation and migration execution relevant with the identified dependencies and SLAs (Service-Level agreements).
- Security and Reliability, spanning from security policies, access, encryption to availability and resilience
- Monitoring and Reporting, covering the migration progress, solution performance analysis and reporting
- Optimization, Customer Satisfaction and Improvement

Sopra Steria Digital and Cloud Center of Excellence enables comprehensive, value-led and flexible migration and modernization approach to unlock value from prior investments. Our multi-disciplinary teams define customized roadmap for complex or large-scale workload migration, including security and compliance requirements. They provide architecture and post-implementation activities, secured by well-architected review.

"The Cloud Migration is often a first-step of our customers' digitalization plans. This phase triggers business-driven technology activities allowing to reinventing customer experience, enhancing operational efficiency, or creating new products and features. It also accelerates the pace of adoption of Data, Artificial Intelligence or IoT solutions into their digital platforms for better resolving business-critical challenges" said **Grégory Wintrebert, CEO at Sopra Steria France.**

As a Google Cloud Premier Partner and member of the Google Cloud Managed Service Provider (MSP) program, Sopra Steria provides end-to-end Transformation Services including Cloud Assessment, Hybrid and multi-cloud platform Design, Migration, Apps Development,

Modernization and Managed Services including Observability, SRE/DevSecOps/NoOps and FinOps activities.
