Create a unique user experience while maintaining control

Safety

Compliance

Orchestration and configuration

Order management and connection to exchanges

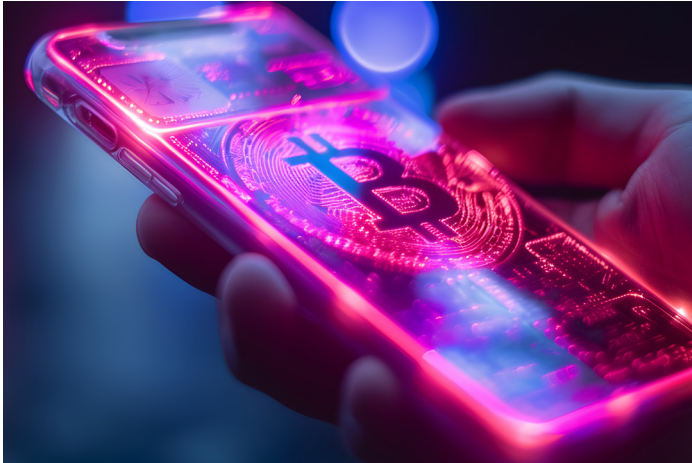

Offer your customers a solution for:

- Buy and sell crypto assets
- Send and receive crypto assets
- Generate tax and activity reports
- Get market data and analysis
- Learn more about crypto assets

The world is how we shape it

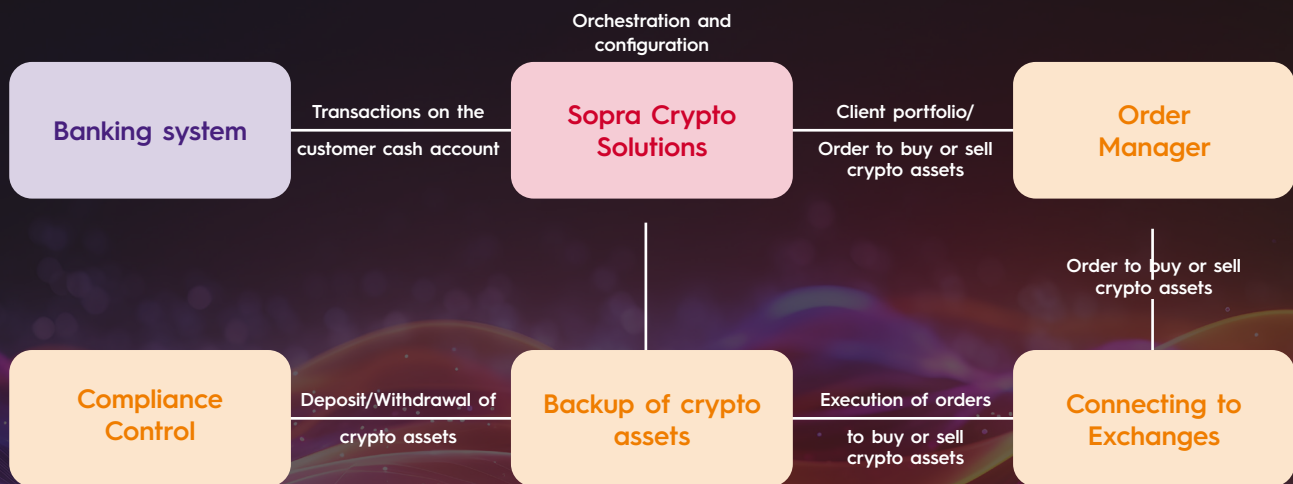

sopra  steria

The best platform on the market

- Time-to-market: 6 months (vs. 2 years on average)
- Seamless banking integration via compatible APIs
- Simplified configuration of offers (available assets, transaction limits, fees, etc.), access and authorizations for different internal users
- Regulatory compliance (MiCA, TFR): automatic control, blocking and freezing of funds, 2FA, configurable limits
- Quick and easy management of users, limits, available assets, and fees
- Optimization, monitoring, and reporting of activities
- Customizable interface, ready to use and intuitive

Functional Architecture

We support you every step of the way: from integration to full implementation of the solution

With over 50 years of **experience** supporting commercial, private, and retail banks, we are much more than an IT service provider. We are a strategic partner committed to the success of your projects.

Consulting: Our teams support you in the early stages of the project by helping define the implementation framework and, later on, by guiding change management

Integration: Our teams assist you with integrating the platform and deploying it within your infrastructure
